

## SGPGI Breast Course 2016

### List of Poster Presentations

Presenter	Abstract Title
<b>Competition Posters</b>	
1. Gaurav Kumar	A Dosimetric study of assess the impact of breast cancer surgery, Breast conservative surgery(BCS) versus Modified radical mastectomy(MRM) in left sided breast cancer patients on radiation doses received by the heart and correlation between 2D and 3D (volumetric) parametric constraints stated for the heart in 3-dimensional planning of Breast radiotherapy.
2. RajanYadav	Hypofractionatedvs Conventional radiotherapy: Is there a difference in local recurrence?
3. DhanabirThangjam	Nottingham Prognostic index(NPI) – A Simple Predictive tool for Operable Breast Cancer
4. Sachin S Shenoy	Implementation of quality indicators(QI) of sentinel lymph node Biopsy (SLNB) in clinically node breast cancer: Clinical relevance and technical difficulties
5. AbheeshVarmaHegde	Correlation between Axillary Lymph nodal staging on clinical examination versus pathological Lymph nodal staging: Is clinical examination good enough?
6. Brahma Duth B L	Metaplastic Breast Carcinoma – A case study
7. Rakesh Kumar Meena	Prognostic Evaluation of Angiogenesis and Lymphangiogenesis using Endothelial markers in breast cancer
8. R.N. Meena	Nerve Preservations and its importance in breast cancer
9. Agni Gautam Shah	Expression of Cytokeratin – 18 in Serum as a biomarker of Apoptosis and Necrosis in carcinoma breast
10. Amitabh Jena	Latissimus Dorsi (LD) Flap reconstruction in a case of advanced carcinoma breast
11. Farhan-ul Huda	Breast tuberculosis: A disease not to be forgotten
12. Archana Sinha	Correlative study of Ultrasonographic and Histopathological findings of the breast disease
13. Rashmi Patnayak	Androgen receptor expression in Triple negative breast cancer – study from a tertiary health care center in South India
14. Smitha Rao	Pattern of Presentation of breast disease in HSK hospital with clinicopathological correlation –A prospective observational study
<b>Non-Competition Posters (Host- Department Presentations)</b>	
15. Sendhil Rajan	Changing profiles of Breast cancer Patients over Two-and-a-Half decades at a tertiary care hospital in India
16. Sendhil Rajan	Sentinel Lymph node Biopsy for stage 3 Breast cancer: Is Post-NACT as good as primary surgical SLNB?
17. Sendhil Rajan	Prospective Randomized trial of use of in-house prepared low-cost Radiopharmaceutical versus Commercial Radiopharmaceutical for sentinel lymph node biopsy(SLNB) in patients with early stage invasive breast cancer
18. Chaitra S	An audit of breast cancer presentation, pathology and treatment at Dept of Endocrine & Breast Surgery SGPGIMS during last 5 years
19. Ashwini CR	Audit of surgically managed benign breast diseases treated over last 5 years at SGPGIMS Lucknow
20. Ashwini CR	Traumatic fat necrosis: a case report and literature review
